Pisci

Adabtable design to support learning!

Pisci

Pisa is a completely Finnish product family. Its' innovative features guarantee easy functionality and Pisa's measurements are efficient for the space. The light pipe frame creates a playful look and it can be painted according to the RAL color chart. Laminate colors are available with Isku's wide color range.

Pisa 1000 chair is highly stackable and has a strong structure.

Pisa 1001 loop-legged chair is light, stackable and linkable. Linking fulfils the EN14703 standard.

Pisa 1002 cross base chair can be equipped with aluminum or plastic cross base. The cross base is available with castors or leg pads. Chair is height adjustable and the sitting height with wheels is 35-45 cm.

Chairs with linking cross each others. The loop-legged chair creative shape allows linking straight from the leg pads when parts are less exposed to hits and scratches.

All chair models are available with hanging hooks. The transparent material of the hanging hooks reflects the color of the base and makes the hook invisible. Melamine and laminate table tops are used with chairs with hanging hooks.

The loop-legged chair and four point leg chair are stackable and they have their own chair trolley.

Easy stacking allows for
efficient use of the space!

Since 1928

www.isku.com

Isku is a Finnish family business founded in 1928 in Lahti. Isku designs, manufactures and markets furniture and holistic interior design solutions for homes, schools, offices, health care and all public spaces. In addition to a chain of stores covering all of Finland, Isku operates in the Nordic countries, the Baltic countries, Poland, Russia and the Middle East. Isku's own furniture factories are located in Lahti. Isku complies with the ISO 9001 quality system, and actively develops ecological production: Isku was the first in the industry to be awarded the ISO 14001 environmental certificate, and today, its entire production is PEFC certified, meaning that the origins of all wood used by Isku is known and that the wood has been produced according to the principles of sustainable development.
